

## Juan Ramón García Vila

### About Roommatik

Roommatik is a leading company in Self check-in solutions for the hospitality industry. Our solutions include kiosks with different applications and form factors (floorstanding, wall embedded, countertop...), etc.

The hotel can provide their guests with an unattended check-in. All the legal requirements are met, including electronic signing, identity verification, facial recognition, passport or id-card data capture, police reports,...

Our solutions are integrated with the major players in the hospitality sector worldwide (PMS, electronic keys, channel managers...). Roommatik kiosks are currently checking-in more than 5.000 daily guests.

The check-in kiosk solves different problems, depending on the hotel type.

- For small hotels it allows a 24/7 open frontdesk where it would not be viable otherwise, due to the huge personnel costs

- For large hotels, it can be a suitable complement to the reception desk, helping to avoid queues, performing express check-in/out for business travelers...

Roommatik also develop kiosks for other sectors as Spa resorts, Rent-a-car, transport, Horeca...
